Unite in Defence

Now is the Time to Get Involved

The impact of the coronavirus pandemic has affected members and workers across both the public and private sectors of the economy in innumerable different ways. With significant pay restraints in the public sector already being formalised and with a new era of public sector austerity a serious possibility, MoD workers must prepare to push back.

Now, more than ever, it is vital that workers stand together on matters of common concern, to look out for one another and to protect and advance shared interests. To provide the best support to you at work, Unite needs to hear from members and workers employed on civilian contracts with the MoD today.
