

# WHO CARES FOR SCOTLAND'S CARE SECTOR WORKERS?

## Care sector workers deserve more than just applause!

### You Know It

All year care workers have been telling Unite the Union Organisers how they feel at work and that they deserve better. Here are some of the words that they used;

*"there is extra work to do due to COVID-19 but not enough staff to cover this"*

*"no recognition or appreciation for taking on additional responsibility during the pandemic"*

*"social care workers are amongst the lowest paid workers in our country yet we do such a valuable, worthwhile but stressful job"*

### We Know It

Unite the Union have heard the loud and clear message from care workers telling us how they feel and they are tired of being taken advantage of and that they deserve more than applause.

We are pleased to announce that Unite the Union is launching a Scotland wide campaign to address the issues that you have told us are important to you. To find out more on what this major campaign will look like follow us on social media today by searching for us at:

Unite Caring for Carers

@UniteCaresSco

### Do They Know It?

Our MSP's have regularly gone on the record to say how much they value key workers like you. They have stood outside and clapped for you. They have posted on social media saying they appreciate you. They have stood in Holyrood and said the country needs you. Their words though do not match their deeds which makes us ask the question, do they really know what you have gone through? Do they really care how you feel? Do they know what you would need them to do?

### You know it, we know it—do they know it?

Join with us to campaign for a better Care Sector, working so that you get the workplaces that you deserve.

Not a member of Unite? Membership rates start from £2.03 a week, to join or find out more information go online to:
